1 About these Qualifications

This publication contains OCR's GCSE (Short Course) and GCSE specifications in Religious Studies (World Religions) for teaching from September 2009.

The OCR GCSE (Short Course) and GCSE specifications in Religious Studies, with their emphasis on World Religions, provide an opportunity for candidates to build upon the foundations laid down by following a Locally Agreed Syllabus in Religious Education (where applicable). They enable candidates to continue their study of Religious Education from the earlier Key Stages, although not requiring or assuming any prior knowledge in the area of Religious Education. It is possible to deliver the specifications in conjunction with a Locally Agreed Syllabus in Religious Education.

The specifications provide the opportunity for candidates to follow a coherent course, balanced in terms of breadth and depth, and they support the study of Christianity and/or one or more other principal religions.

Both specifications consist of units, two for GCSE (Short Course) and four for GCSE, which can be examined in different examination series (at least 40% of units must be taken when aggregating).

These specifications offer all candidates equal opportunities to demonstrate their attainment, regardless of gender, religion and ethnic and social background; they are accessible to candidates of any religious persuasion or none.

Both specifications complement courses in Personal, Social and Health Education and/or Citizenship, and provide potentially rich sources of evidence for attainment in five of the six Key Skills; they also contribute to cross-curricular areas of health education, personal and social education, gender and multi-cultural issues.

These specifications allow progression into general post-16 education and provide candidates with an appropriate foundation for study at Advanced Subsidiary GCE and Advanced GCE in Religious Studies, particularly for the OCR specifications at these levels.

OCR has taken great care in the preparation of these specifications and assessment materials to avoid bias of any kind.

1.1 GCSE (Full Course)

From September 2009 the GCSE is made up of 4 units. Centres must choose one unit from units B569-B582 and three from units B569-B588, B603. Two of these units may be carried forward from the Short Course but this is not compulsory. These units are externally assessed.

From September 2009 it will be possible to complete a Short Course in World Religions and combine it with a Short Course in Philosophy and Ethics to make a GCSE in Religious Studies (see section 1.3 for possible unit combinations).

1.2 GCSE (Short Course)

The GCSE (Short Course) is both a 'stand-alone' qualification and also the first half of the corresponding GCSE. The GCSE (Short Course) is assessed at the same standard as the corresponding two year GCSE course.

From September 2009 the GCSE (Short Course) is made up of a choice of 2 units which are externally assessed and form 50% of the corresponding GCSE (Full course). For the Full course Centres must choose one unit from units B569-B582 and three from units B569-B588, B603.

1.3 Possible options for combining Short Courses

Candidates may combine a Short Course in World Religions with a Short Course in Philosophy and Ethics to create a GCSE in Religious Studies.

Possible combinations of units are:

World Religions – Any two units, except unit B603

Philosophy and Ethics – Only units B603 and B604 may be used.

See Section 4.2 for certification code.

4.6 Quality of Written Communication

Quality of written communication is assessed in all units and in all questions.

Candidates are expected to:

- ensure that text is legible and that spelling, punctuation and grammar are accurate so that meaning is clear;
- present information in a form that suits its purpose;
- use a suitable structure and style of writing.

5 Technical Information

5.1 Making Unit Entries

Please note that centres must be registered with OCR in order to make any entries, including estimated entries. It is recommended that centres apply to OCR to become a registered centre well in advance of making their first entries.

It is essential that unit entry codes are quoted in all correspondence with OCR. See section 4.1 for unit entry codes.

5.2 Terminal Rules

Candidates must take at least 40% of the assessment in the same series they enter for either the full course or short course qualification certification.

5.3 Unit and Qualification Re-sits

Candidates may re-sit each unit once before entering for certification for a GCSE or GCSE (Short Course).

Candidates may enter for the qualifications an unlimited number of times.

5.4 Making Qualification Entries

Candidates must enter for qualification certification separately from unit assessments. If a certification entry is **not** made, no overall grade can be awarded.

Candidates may enter for:

OCR GCSE in Religious Studies (World Religions) – J620

OCR GCSE (Short Course) in Religious Studies (World Religions) – J120

OCR GCSE (Combined Short Courses) in Religious Studies – J623

A candidate who has completed all the units required for the qualification must enter for certification in the same examination series in which the terminal rules are satisfied.

GCSE and GCSE Short Course certification is available from June 2010.

5.5 Grading

Both GCSE (Short Course) and GCSE results are awarded on the scale A*-G. Units are awarded a* to g. Grades are indicated on certificates. However, results for candidates who fail to achieve the minimum grade (G or g) will be recorded as *unclassified* (U or u) and this is **not** certificated.

Both GCSE (Short Course) and GCSE are unitised schemes. Candidates can take units across several different series provided the terminal rules are satisfied. They can also re-sit units or choose from optional units available. When working out candidates' overall grades OCR needs to be able to compare performance on the same unit in different series when different grade boundaries have been set, and between different units. OCR uses a Uniform Mark Scale to enable this to be done.

A candidate's uniform mark for each unit is calculated from the candidate's raw marks on that unit. The raw mark boundary marks are converted to the equivalent uniform mark boundary. Marks between grade boundaries are converted on a pro rata basis.

When unit results are issued, the candidate's unit grade and uniform mark are given. The uniform mark is shown out of the maximum uniform mark for the unit e.g. 41/50.

The uniform mark thresholds for each of the assessments are shown below:

(GCSE) Unit Weighting	Maximum Unit Uniform Mark	Unit Grade								
		a*	a	b	c	d	e	f	g	u
25%	50	45	40	35	30	25	20	15	10	0

(GCSE Short Course) Unit Weighting	Maximum Unit Uniform Mark	Unit Grade								
		a*	a	b	c	d	e	f	g	u
50%	50	45	40	35	30	25	20	15	10	0

Candidates' uniform marks for each module are aggregated and grades for the specification are generated on the following scale:

Qualification	Qualification Grade									
	Max UMS	A*	A	B	C	D	E	F	G	U
GCSE	200	180	160	140	120	100	80	60	40	0
GCSE (Short Course)	100	90	80	70	60	50	40	30	20	0

Awarding Grades

The written papers will have a total weighting of 100%.

A candidate's uniform mark for each paper will be combined to give a total uniform mark for the specification. The candidate's grade will be determined by the total uniform mark.

5.6 Result Enquiries and Appeals

Under certain circumstances, a centre may wish to query the grade available to one or more candidates or to submit an appeal against an outcome of such an enquiry. Enquiries about unit results must be made immediately following the series in which the relevant unit was taken.

For procedures relating to enquires on results and appeals, centres should consult the *Administrative Guide for General Qualifications* and the document *Enquiries about Results and Appeals – Information and Guidance for Centres* produced by the Joint Council. Copies of the most recent editions of these papers can be obtained from the OCR website.

5.7 Shelf-Life of Units

Individual unit results, prior to certification of the qualification, have a shelf-life limited only by that of the qualification.

5.8 Guided Learning Hours

GCSE Religious Studies (World Religions) requires 120-140 guided learning hours in total.

GCSE (Short Course) Religious Studies (World Religions) requires 60-70 guided learning hours in total.

GCSE Religious Studies (Short Course World Religions and Short Course Philosophy and Ethics) requires 120-140 guided learning hours in total.

5.9 Code of Practice/Subject Criteria/Common Criteria Requirements

These specifications comply in all respects with the current *GCSE, GCE, GNVQ and AEA Code of Practice* as available from the QCA website, *The Statutory Regulation of External Qualifications 2004* and the subject criteria for GCSE Religious Studies.

5.10 Prohibited Qualifications and Classification Code

Candidates who enter for the OCR GCSE specifications may not also enter for any other GCSE or GCSE Short Course specification with the certification title *Religious Studies* in the same examination series.

Every specification is assigned to a national classification code indicating the subject area to which it belongs.

The classification code for these specifications is 4610.

Centres should be aware that candidates who enter for more than one GCSE qualification with the same classification code will have only one grade (the highest) counted for the purpose of the School and College Achievement and Attainment Tables.

5.11 Disability Discrimination Act Information Relating to this Specification

GCSEs often require assessment of a broad range of competences. This is because they are general qualifications and, as such, prepare candidates for a wide range of occupations and higher level courses.

The revised GCSE qualifications and subject criteria were reviewed to identify whether any of the competences required by the subject presented a potential barrier to any disabled candidates. If this was the case, the situation was reviewed again to ensure that such competences were included only where essential to the subject. The findings of this process were discussed with disability groups and with disabled people.

Reasonable adjustments are made for disabled candidates in order to enable them to access the assessments. For this reason, very few candidates will have a complete barrier to any part of the assessment. Information on reasonable adjustments is found in *Access Arrangements and Special Consideration Regulations and Guidance Relating to Candidates who are Eligible for Adjustments in Examinations* produced by the Joint Council (www.jcq.org.uk).

Candidates who are still unable to access a significant part of the assessment, even after exploring all possibilities through reasonable adjustments, may still be able to receive an award. They would be given a grade on the parts of the assessment they have taken and there would be an indication on their certificate that not all of the competences have been addressed. This will be kept under review and may be amended in the future.

5.12 Arrangements for Candidates with Particular Requirements

Candidates who are not disabled under the terms of the DDA may be eligible for access arrangements to enable them to demonstrate what they know and can do. Candidates who have been fully prepared for the assessment but who are ill at the time of the examination, or are too ill to take part of the assessment, may be eligible for special consideration. Centres should consult the *Regulations and Guidance Relating to Candidates who are Eligible for Adjustments in Examinations* produced by the Joint Council.

6 Other Specification Issues

6.1 Overlap with other Qualifications

There is a degree of overlap between the content of these specifications and those for GCSE Religious Studies (Philosophy and Ethics). There is one common unit – B603 Ethics.

6.2 Progression from these Qualifications

GCSE qualifications are general qualifications which enable candidates to progress either directly to employment, or to proceed to further qualifications.

Progression to further study from GCSE will depend upon the number and nature of the grades achieved. Broadly, candidates who are awarded mainly Grades D to G at GCSE could either strengthen their base through further study of qualifications at Level 1 within the National Qualifications Framework or could proceed to Level 2. Candidates who are awarded mainly Grades A* to C at GCSE would be well prepared for study at Level 3 within the National Qualifications Framework.

6.3 Spiritual, Moral, Ethical, Social, Legislative, Economic and Cultural Issues

Religious Studies enables candidates to develop their understanding of spiritual, moral, social and cultural issues in considerable depth. All modules address at least one of these areas directly. Candidates learn about the nature of the spiritual issues and have the opportunity to consider some responses to spiritual questions. For example, candidates studying papers Buddhism 1, Christianity 1, Hinduism 1, Judaism 1, Islam 1 or Sikhism 1 will study the basics of the religious teachings, which may guide the modern Buddhist/Christian/Hindu/Jew/Muslim/Sikh in making decisions about contemporary moral issues such as abortion and divorce.

Candidates studying any of the units B569 through B582 and unit B603 will gain an understanding of the beliefs of the faith concerned and of the way these have an impact on cultural and social issues in the community and in the family.

6.4 Sustainable Development, Health and Safety Considerations and European Developments, consistent with international agreements

OCR has taken account of the 1988 Resolution of the Council of the European Community and the Report *Environmental Responsibility: An Agenda for Further and Higher Education*, 1993 in preparing this specification and associated specimen assessments. European examples should be used where appropriate in the delivery of the subject content.

6.5 Avoidance of Bias

OCR has taken great care in preparation of these specifications and assessment materials to avoid bias of any kind.

6.6 Language

These specifications and associated assessment materials are in English only.

6.7 Key Skills

This specification provides opportunities for the development of the Key Skills of *Communication*, *Application of Number*, *Information and Communication Technology*, *Working with Others*, *Improving Own Learning and Performance* and *Problem Solving* at Levels 1 and/or 2. However, the extent to which this evidence fulfils the Key Skills criteria at these levels will be totally dependent on the style of teaching and learning adopted for each unit.

The following table indicates where opportunities may exist for at least some coverage of the various Key Skills criteria at Levels 1 and/or 2 for each unit.

Detailed opportunities for generating Key Skills evidence through this specification are posted on the OCR website (www.ocr.org.uk). A summary document for Key Skills Coordinators showing ways in which opportunities for Key Skills arise within GCSE courses has been published.

6.8 ICT

In order to play a full part in modern society, candidates need to be confident and effective users of ICT. Where appropriate, candidates should be given opportunities to use ICT in order to further their study of Religious Studies (World Religions).

This section offers guidance on opportunities for using ICT during the course. Such opportunities may or may not contribute to the provision of evidence for IT Key Skills.

6.9 Citizenship

Since September 2002, the National Curriculum for England at Key Stage 4 has included a mandatory programme of study for Citizenship. Parts of this Programme of Study may be delivered through an appropriate treatment of other subjects.

This section offers guidance on opportunities for developing knowledge, skills and understanding of citizenship issues during the course.

Appendix A: Grade Descriptions

Grade descriptions are provided to give a general indication of the standards of achievement likely to have been shown by candidates awarded particular grades. The descriptions must be interpreted in relation to the content in the specification; they are not designed to define that content. The grade awarded will depend in practice upon the extent to which the candidate has met the assessment objectives overall. Shortcomings in some aspects of the assessment may be balanced by better performance in others.
